

# Pioneer® Car Audio Sound Found the Road to Higher Power

# With ST's Advanced Systems-on-Silicon.

When Pioneer wanted to take audio power to new levels, they knew they would need to work with a leader in smart power integration.

They chose: STMicroelectronics.

ST's track record in power integration and leading-edge manufacturing capability meant guaranteed success right from the very start.

For more information on STMicroelectronics, and all of our products that are setting higher standards, go to [www.st.com](http://www.st.com).
